MESSAGE

In the current era of knowledge based economy, technical education is the key to the socio-economic development of the country. I feel very much elated while admission to the newly established K. K. University (KKU) is going on in 2017-18 session. I am pleased to acknowledge that our dream to spread of quality education in Bihar is coming true through the establishment of K. K. University. This University with its presence in rural surroundings focuses on having unique approach towards developing a knowledge campus. Our aim is to set up an institution with par excellence competitive to the best in the world. Today, I am proud to say that we have been greatly successful in our endeavor.

The prime objective of the University is to deliver quality of service you need for becoming a successful professional with a competitive edge. The picturesque campus with its aesthetic buildings, human resource, laboratories, workshop, library, playground, amphitheatre, sports and games complex, highly qualified faculty members etc, has laid a sound foundation for acquiring quality higher and technical education here. We are passionate about grooming you as competent professionals, good human beings with ethical values and respect for Indian traditions (sanskar). While ensuring holistic education so as to make you better human beings, we instill the sense of responsibility as expected of aroused citizens. It is assured that you will be proud of yourself as a confident and successful professional after the completion of course at KKU.

At the end, I must say that our students remain our best ambassadors, who, after passing out, will be equipped in every aspect to successfully meet the challenges and expectations of the Industry.

I welcome all the new entrants, and wish them all the best.

MESSAGE

" We, at K. K. University, are committed to motivate students to learn and practice knowledge and skills, necessary to face challenges in life and contribute to global economy. "

The thrust is given to establish a world class center of learning in the field of engineering and applied sciences. Through quality education, each student is expected to empower technical and professional competence to succeed in competitive environment and achieve a successful career. The various schools seek to develop in its students the technical acumen and expertise, managerial skills and professional versatility required in industrial domains now. We expect to offer the best academic ambience and placement assistance.

We instill a vision to go beyond the conventional practice through sustenance, innovation, research and application. A meticulously planned effort to embark upon real life projects, the synergic venture of academia and industry for enabling students to take the leadership is what we have been relentlessly working upon. We welcome the new entrants of 2017-18 to be a part of this exploratory journey through which the lessons of life and the nuances of technology would be seamlessly integrated among the students.

MESSAGE

Education is essential for every individual. Without education, no country can prosper and compete with the challenges that lie ahead in the rapidly growing globalized economy. Moreover education enables human beings to realize his/her talents and understand responsibilities to propel one's own growth as well as to take part in nation building.

Over the past two decades, the trend in Bihar has witnessed a large number of students opting for admission in engineering and technology institutions all across India in search of quality education which may also provide good employment prospect. Our Hon'ble Chief Minister, Sri Nitish Kumar Jee, has realized this fact and taken initiative to set up new Universities in the state to curb plying of students to outside state. This is a very bold step what Bihar needed long back. Nevertheless, the establishment of K. K. University under Bihar Private Universities Act, 2013 is a welcome step for all of us who are keen to bring quality education to guide our students with new and emerging fields of higher and technical education.

K. K. University strives to generate trained manpower in various fields what the country need keeping in view of industrial requirements to boost economy within India and outside India.

I wish best of luck to all those who seek admission in K. K. University in the first batch (2017-18), and extend warm welcome to our door to success.

M E S S A G E

Dr Kalyan Kumar
VICE CHANCELLOR

It gives me immense pleasure to bring out the much awaited Prospectus of the **K. K. University** (KKU). The Prospectus contains all relevant details what the students may like to know to opt for study programmes of their choice for acquiring knowledge and skills suited to career making. Although the University is new but has acquired a unique place in Bihar in the spread of higher education. The regular under-graduate study programmes commencing in 2017-18 session focus on industry specific and up-to-date course curriculum, time bound semester planning, 10-point grading system of evaluation, and also, allow students to undergo industry internship with a view to provide more industry interface and gainful employment opportunities to its pass-outs.

Nevertheless, the post-graduate study programmes shall be emphasized with particular reference to teaching, research and industry. As the country needs a lot of trained teachers and researchers in almost all the fields to adopt newly developed technologies for the growth of industrial sector, care is taken to include real life project studies and/or case studies. The real strength of KKU lies in its highly qualified, motivated and energetic faculty, sincere officers and dedicated staff. The students are highly disciplined, well behaved, sincere and hard working. The pass-outs are well supported by campus placements opportunities.

On demand from local people, and also, to cater to the needs of the people of Bihar, the University wishes to launch such programmes in the first phase in 2017-18 session which will impress the students of Bihar in pursuing higher studies within the home state without going to other states. Further, the university is poised to impart higher education in association with the HRDD, Govt. of Bihar in relevant fields to provide trained manpower for the overall development of the state.
